Resignations Are Coming in Too Slowly.

OPPOSITION TO THIRD TERM

Cabinet Officers May Be Affected by the Attitude Assumed by the President.

There is no longer the least shadow of doubt that sweeping changes will be made in the diplomatic service when the nt's new term begins.

Yesterday an unofficial, but authorita-tive, announcement was made at the State Department that the President expected all Cabinet officers, ambassadors and ministers to place their resignations at his disposal by March 4. the announcement was made in response to a question put to an official of the State Department there is good reason to believe the Administration was anxious to have it go out in an authori-tative form for the purpose of reminding a number of incumbents of the high positions that their resignations were not coming in fast enough.

May Affect Cabinet.

So far as Cabinet members are concerned the announcement is taken to mean that several changes will oc-Secretary Hay and Attorney General Moody are thus far the only two members who have been announced at the White House as fixtures. Secretaries Morton and Metcalf, the infant members, will be informed, if this has rot already been done, that they are expected to retain their seats. Secretary expected to retain their seats. Secretary Taft will also be invited to remain. This will leave the remaining portfolios of Treasury, Interior, Agriculture, and Postoffice, as "doubtful." Every evidence now points to the fact that President Roosevelt does not favor the idea of third-term officeholding, and this, if no other reason, is likely to induce the older members of the Cabinet to insist on getting out even if the President urges them to remain.

"'We approve very heartily of your peace proposition. It is a grand project. You have our indorsement, but we decline to participate.' all standard remedies and corresponding adjuncts of a first-class pharmacy and the finest and best of toilet articles and preparations and many useful accessories and remedial appliances. The earning of a fair living, with the satisfaction which arises from a knowledge of the benefits conferred upon their patrons and assistance to the medical profession, is usually their greatest reward for long years of study and many hours of daily toil. They all know that Syrup of Figs is an excellent laxative remedy and that it gives universal satisfaction, and therefore they are selling many millions of bottles annually to the well informed purchasers of the choicest remedies, and they always take pleasure in handing out the genuine article bearing the full name of the Company-California Fig Syrup Co .- printed on the front of every package. They know that in cases of colds and headaches attended by biliousness and constipation and of weakness or torpidity of the liver and bowels, arising from irregular habits, indigestion, or over-eating, that there is no other remedy so pleasant, prompt and beneficial in its effects as Syrup of Figs, and they are glad to sell it because it gives universal satisfaction.

Owing to the excellence of Syrup of Figs, the universal satisfaction which it gives and the immense demand for it, imitations have been made, tried and condemned, but there are individual druggists to be found, here and there, who do not maintain the dignity and principles of the profession and whose greed gets the better of their judgment, and who do not hesitate to recommend and try to sell the imitations in order to make a larger profit. Such preparations sometimes have the name-" Syrup of Figs"-or "Fig Syrup" and of some piratical concern, or fictitious fig syrup company, printed on the package, but they never have the full name of the Company-California Fig Syrup Co.-printed on the front of the package. The imitations should be rejected because they are injurious to the system. In order to sell the imitations they find it necessary to resort to misrepresentation or deception, and whenever a dealer passes off on a customer a preparation under the name of "Syrup of Figs" or "Fig Syrup," which does not bear the full name of the California Fig Syrup Co. printed on the front of the package, he is attempting to deceive and mislead the patron who has been so unfortunate as to enter his establishment, whether it be large or small, for if the dealer resorts to misrepresentation and and deception in one case he will do so with other medicinal agents, and in the filling of physicians' prescriptions, and should be avoided by every one who values health and happiness. Knowing that the great majority of druggists are reliable, we supply the immense demand for our excellent remedy entirely through the druggists, of whom it may be purchased everywhere, in original packages only, at the regular price of fifty cents per bottle, but as exceptions exist it is necessary to inform the public of the facts, in order that all may decline or return any imitation which may be sold to them. If it does not bear the full name of the Company-California Fig Syrup Co.-printed on the front of every package, do not hesitate to return the article and to demand the return of your money, and in future go to one of the better class of druggists who will sell you what you wish and the best of everything in his line treasonable prices.
